

Prayer Song – Volume I

(Copyright: Len Magee 1976)

Blue Skies

Chorus:

Blue skies are all around
Happiness it does abound
Skies of grey have blown away
Jesus washed my sins away

Once I was lost in sin and shame, is that you?
I never knew my Saviour's name, oh it's true
Then Jesus came to me
And gave me liberty
And now I'm singing every day

Chorus:

Blue skies, etc.

Once when I heard how Jesus died, just for me
Then something happened deep inside, I could see
He died on Calvary
To give me liberty
And now I'm singing every day

Chorus:

Blue skies, etc.

And now He lives within my soul, oh it's good
And He can also make you whole, yes He would
If you will come to Him
He'll take away your sin
And you'll be singing every day

Chorus:

Blue skies, etc.

(Repeat chorus several times)

Don't Pretend

Jesus stands an open door
To the heart of God and more
All who enter in through Him
Will find peace and rest within

Now some say, 'Well now that's fine
I'll believe some other time
I've so many things to do
Call again when I am through'

Chorus:

Think how sorry you will be
When you're in eternity
And you'll wonder what you've done
In rejecting God's dear Son
Don't be leaving it too late
Don't be gambling with your fate
Don't be turning from God's Word
Don't pretend you never heard

Hope God known said they would turn
In the eleventh hour and repent
But God's ways they did not learn
T'was ten thirty when they went

The only moment we can say
We are sure of is today
And tomorrow, well who knows
When God's door of grace will close?

Chorus:

Think how sorry, etc.

Girls' Song

Looking through the window of your heartache and your pain
You're wondering if life has come and passed you by again
In a world of compromising you've just got to make a stand
Don't be getting anxious, the future's in His hands

Chorus:

You can be beautiful, beautiful for God
You won't need society
Searching for variety
Looking for controversy
And breaking with authority
You can be beautiful, beautiful, so beautiful for God

You may not have a boyfriend and you may not have a car
You may not have a fairytale romance, or travel far
But if you've got the Saviour then you've got everything
You have got the Wine of Love, and the Song of Songs to sing

Chorus:

You can be beautiful, ah beautiful for God, etc
(Repeat chorus and last line)

Stories Of Jesus

See Him in the Temple talking to wise men
Answering questions they'd asked for centuries
See Him in the mountains talking with His father
He heard His voice on every breeze

Chorus:

Tell me the stories, stories of Jesus
It's joy and music to my soul
Tell me the stories, stories of Jesus
Stories that never grow old

See him by the lake side, and there comes a leper
Such love and pity this world had never seen
Then Jesus touched him, oh how He touched him
And he was made completely clean

Chorus:

Tell me the stories, etc.

Then there was Calvary, oh blessed Calvary
I close my eyes and see my Saviour's face
I hear the crying, Jesus is dying
It was for me, He took my place

But then shortly after, oh what joy and laughter
The grave was empty, the stone was rolled away
His work completed, death was defeated
And He is still alive today

Chorus:

Tell me the stories, etc.

Carried On The Shoulders Of The Shepherd

(Composed by Peterson)

Jesus was a Shepherd true that found me
When I wandered like a wandering sheep
On His mighty shoulders Jesus placed me
Safely there my soul He'll ever keep

Chorus:

Carried on the shoulders of the Shepherd
No more on the mountains will I roam
Carried on the shoulders of the Shepherd
Safely will I reach my home sweet home

Nothing in myself such love could merit
All of grace these blessings rich and free
Oh the wonder of such boundless mercy
For a worthless sinful soul like me

Chorus:

Carried on the shoulders, etc.
(Repeat chorus)

Chords Of Love

When my faith was weak and small
And I had no peace at all
Lying where I'd fall
There was no one left to call
Then I felt a hand in mine
And my soul lost touch with time
Water turned to wine
T'was a nail pierced hand Divine
Chords of love
Chords of love
He drew me with chords of love

Then the morning dawned bright clear
And I knew His presence near
Lonely days of fear
Were washed away in tears
It was gone, my sin and shame
And somehow through His name
Heaven really came
And I've never never been the same
Chords of love
Chords of love
He drew me with chords of love
Chords of love
Chords of love
Oh He drew me with chords of love
Love...
Love...
Love

Walking Through The World

Chorus:

Walking through the world with my Saviour
The grass and the trees seem oh so green
Walking through the world with my Saviour
Till Jesus came I'd never really seen

Once my ship of life was sinking
Waves into my soul did pour
But Jesus He of me was thinking
He drew me safely home back to the shore

Chorus:

And now I'm walking through the world with my Saviour, etc

Once my life was filled with sorrow
Darkness dogged my every way
I wondered how I'd face tomorrow
Then Jesus came and showed the light of day

Chorus:

And now I'm walking through the world with my Saviour
The grass and the trees are ah so green
Walking through the world with my Saviour
Till Jesus came I'd never really seen
Till Jesus came I'd never really seen
Walking!

Call On Me

What can you give me? How can you please me?
I own the World and everything
Give me your troubles, give me your heartaches
Give me the chance to make you see
And call on me and I will hear you
Even in the night time when you just can't see
Call on me and I will answer
And with loving kindness
I'll save you and you will glorify me.

If I were hungry I wouldn't tell you
I own the land and every sea
If you would praise me, if you would thank me
Give me the chance to make you free
And call on me and I will hear you
Even in the night time when you just can't see
Call on me and I will answer
And with loving kindness
I'll save you and you will glorify me
Mm with loving kindness
I'll save you and you will glorify me

Holy Angels Cannot Sing

(Composed by Jensen)

Angels never knew the joy that is mine
For the blood has never washed their sins away
Though they sing in Heaven there will come a time
When silently they'll listen to me sing 'Amazing Grace'

Chorus:

And it's a song holy angels cannot sing
'Amazing grace, how sweet the sound'
And it's a song holy angels cannot sing
'I once was lost but now I'm found'

And 'Holy is the Lord' the angels sing
All around the throne of God continually
For me to join their song will be a natural thing
But they just won't know the words to 'Love Lifted Me'

Chorus:

And it's a song, etc.

(Repeat chorus)

'I once was lost but now I'm found'

'Now I'm found'

The Prodigal

He went to his father and told him his plans
'Father, I'm wanting to roam
There's pleasures awaiting in far away lands
So I'm leaving home'
Father he stood on the roof of the house
And watched his boy walk out of sight
Part of his living and part of his life
Walked off into the night
God looks for you though you're far away
God call to you, 'Come home today'

With friends all around, the prodigal found
Pleasures all the day long
New folk to know and places to go
Wine and women and song
Father he stood on the roof of the house
Straining his eyes to see
A glimpse of the boy that he'd loved for so long
But it wasn't to be
God looks for you, etc.

There came a great drought, his money ran out
A mighty famine all round
He woke up one day and to his dismay
His friends they couldn't be found
But father he stood on the roof of the house
Wondering how his boy fared
Was he aware though he felt so alone
There was someone who cared?
God looks for you, etc.

Working so hard with pigs in a yard
This was the end of his dream
My father's servants get much more than me
Oh what a fool I have been
I've squandered my wealth, thought only of self
I'll go home and I'll say
'I have done wrong, I shouldn't have gone
Father forgive me, I pray'
Father he ran from the door of the house
Held his boy and he cried
'Bring out the best robes and bring on the feast
This my boy, he's alive
Once was dead, now alive
This my boy, he's alive'

God looks for you though you're far away, yeah
God calls to you, 'Please come home today'
God looks for you though you're far away
God calls to you, 'Please come home today'

Prayer Song

Lord, before my day begins
I just wanna say one thing
I just wanna tell you that I love you
Lord, before my may begins
I just wanna say one thing
I just wanna tell you that I love you

Hallelujah / Praise God
Hallelujah / Praise God
Hallelujah / Praise the Lord
Hallelujah / Praise God
Hallelujah / Praise God
Hallelujah / Praise the Lord

Lord, before my day is done
I just wanna praise your Son
I just wanna tell you that I love you
Lord, before my day is done
I just wanna praise your Son
I just wanna tell you that I love you
